

The 3rd Annual Auditory Perception, Cognition, and Action Meeting
Thursday, November 18th, 2004
Minneapolis, Minnesota

APCAM will be held just prior to the Annual Meeting of the Psychonomic Society (see <http://psychonomic.org/>). The goal of APCAM is to bring together researchers from various theoretical perspectives to present focused research on auditory cognition, perception, and aurally guided action. APCAM is a unique meeting in its exclusive focus on the perceptual, cognitive, and behavioral aspects of audition.

This year's deadline for submissions is August 22nd.

For more information please see:

<http://www.apcam.us/>

Topics may include (but are certainly not limited to):

- *Auditory localization, motion perception, and spatial cognition
- *Auditory object, event, and pattern perception
- *Aurally guided action and navigation
- *Auditory scene analysis
- *Auditory timing and attention
- *Pitch, loudness, and timbre perception
- *Music perception, cognition, and performance
- *Comparative auditory processing
- *Auditory behavioral neuroscience
- *Auditory memory and source identification
