

Technical leader position available at ORELIA SAS

Job Summary:

Technical Leader
Start-up Opportunity
Fontainebleau (40 min away from Paris), FRANCE

The company:

Orelia is a young, growing and pioneering Machine Listening company that enables computers to use sounds as useful informations. Through our advanced pattern recognition algorithms we teach computer how to hear and port our technology into several software and hardware applications for different domains (security, environment...).

The job is located in the city of Fontainebleau, 40 min away from Paris, in a quiet and bucolic area. Orelia is a team of 3 to 5 people which is growing and wants to be a big player in the industry market.

Description:

Orelia is now seeking for an experienced technical leader in charge of the software application developments (mainly in C++), his processing time improvements (using Intel® IPP libraries and SSE) on the new Intel® Atom™ processor and his portage into embedded based systems (Blackfin DSP) with micro-linux OSes.

Desirable knowledge, skills, and abilities:

- At least 5 years of experience
- Object Oriented Programming.
- C++, Assembly, Windows, Linux
- Signal processing
- Real time applications
