

Audiologists Needed For Survey

Survey research is being conducted to assess the current state of electrophysiology in audiology.

Conducted by Kelsey Mankel, Ph.D., and Caitlin Price, Au.D., Ph.D.

Goal of Survey

If you choose to participate, you will complete a short survey regarding your experience with electrophysiological tests and potential barriers to their use.

Experience with electrophysiologic testing is not required to participate.

Who Can Participate?

Full-time or part-time licensed **audiologists** or **audiology assistants/technicians** currently practicing in the United States

Compensation

Up to 10 participants that enter the raffle will win a \$50 gift card

Location

The survey is completed online.
